**IUAES2020 CONGRESS ŠIBENIK, CROATIA
MARCH 9-14 2021 (ONLINE FORMAT)**

Dear colleagues,

The COVID-19 pandemic has forced us to postpone and then move the entire Congress online. Even with the vaccinations and recent decrease of COVID-19 cases, the situation did not improve sufficiently to make the “onsite” part of the Congress a reality.

Nevertheless, it is an honour and gives me enormous pleasure to welcome you to the IUAES2020 Congress “Coming of Age on Earth: Legacies and Next Generation Anthropology“, organized in a virtual mode.

I would like to start with the famous line “Stalna na tom svijetu samo mijena jest” or „The only constant in this world is change”, as cried muezzin from the homonymous poem written by Petar Preradović, back in 1871. I refer to this famous Croatian poem, since it relates to the change, the only universally constant human and environmental condition. Therefore, the theme of this Congress will be related to change that we as humanity, we as scientific discipline, even we as association are going through. “Coming of Age” is envisioned as a platform for anthropologists, but not only them, to discuss and contemplate the change that we usually do “for the sake of future generations” or “for the better future”. Communities and individuals have different ideas about paths forward, reframing who these future generations may be, what they might value, and which are the most desirable means to work towards designated goals.

This Congress invites us all to scrutinize this era of anticipated extreme change for its implications on stasis, tradition and consistency. Anthropology is uniquely positioned to study the legacies that shape and are being shaped by the next generations.

On behalf of the Scientific and Organizing Committees, I wish you a very warm welcome to IUAES2020 Congress!

Saša Missoni
Chair of the IUAES2020 Congress Šibenik
Vice-president of the IUAES
Director of the Institute for Anthropological Research, Zagreb
